About Me

I'm a Self-taught MERN stack Developer and would like to work as a Frontend Developer . I have completed a real time project with both Client and Server side which is a Cricket Club's website including almost the Club's activities , players etc. and also have included an E-commerce section for sales the Cricket equipment , with node js as backend and HBS (handlebars) as frontend . Now iam in my second project and would like to get a job as quick as possible .

Project

• CENTURY UNIVERSAL – CUCC

CENTURY UNIVERSAL is a cricket club's web application playing under Malappuram District Cricket Association (MDCA) , and which having two phases , user and Admin . Here User can buy the Cricket accessories and add their details if they are a Player of Century Universal . and apply coupons whenever they need. Admin can manage All users , shopping as well as the Products and add the Umpires and Officials of CUCC and, also add the upcoming Events and News as well at any time.

Key features –

- Bcrypt
- Cloudinary
- Multer
- Twilio
- Razorpay
- Sweetalert

Education Background

GPTC (Government Polytechnic College , Perinthalmanna)

During 08/2017 – 06/2020

Diploma in Electronics Engineering

Work Experience

- **KIML (Kyungshin Industrial Motherson Ltd)**

04/2021 – 08/2021
Machine operator

Even though I started working as a Machine Operator, later I understood the fact that , that was not my real way and passion as well , so I just continued the coding wherever I quit . Eventually I could learn more about it and I chose to be in this field and make it as my career either.

Mini Projects

- **Todo App**
using Reactjs

- **Portfolio**
using Reactjs

Declaration

I hereby declare that all the information furnished above are true and correct to the best of my knowledge
