About Me

I'm a Self-taught React.js / Next.js Developer. I have completed a couple of real time projects with both vanilla js and React.js . As a React.js Developer , I had worked with a Couple of projects like e-commerce , and Social media as Frontend and which is done by django as it's server side language and still having in a new Project. I have experienced in some another tools like Redux , Redux toolkit , Material UI , Canva and Figma as well . Also I had done some real-time projects with solely in React.js

Education Background

Diploma in Electronics Engineering

Government Polytechnic College , Perinthalmanna

Duration : 08/2017 – 06/2020

Projects

• **MarketMates**

MarketMates is a social media as well as a Digital Marketing website using Reactjs as it's frontend and Python django as it's server side Language. Here the website includes almost every functionalities of a social media website such as Posts , Stories , Messaging etc with using some popular libraries and showing the current Digital Market status. Throughout the project I have been using Redux for State Management.

Frontend

- Reactjs
- Redux

Backend

- Python django
- SQL

Work Experience

- **React.js Developer**

from 10/2021 – Present

I was a self taught MERN stack developer and having been keen interest in the frontend .So I'd chosen the React , the modern and most popular library of Javascript , I've done a Complete Project with vanilla JS and as a Frontend Developer , I had Completed a Project's Frontend with React.js and Redux and still working on a new one. And also I've done a lot of small purpose real time projects with solely in React and Redux is well.

React.js Projects

- **freebills**
receipt maker app (private)
 - **quranalkareem**
